NIC #9928
RFC #335

UCSB Computer
Research Lab.
Roland F. Bryan
1 May 1972

NEW INTERFACE-IMP/360

The former interface to the network for our 360-75 was replaced by a production unit similar to the NASA- AMES and USC versions. This controller went into operation 1 May 1972.

We would be pleased to hear of any difficulties network users encounter, while operating with UCSB, that might be related to this unit.

Thank you.
