Update to the Registrant Information for the
Digital Video Broadcasting Project (DVB)
Uniform Resource Name (URN) Namespace

Abstract

RFC 5328 registered the Uniform Resource Name (URN) namespace "dvb" for the Digital Video Broadcasting Project. This document updates RFC 5328 with new registrant information.

Status of This Memo

This document is not an Internet Standards Track specification; it is published for informational purposes.

This document is a product of the Internet Engineering Task Force (IETF). It represents the consensus of the IETF community. It has received public review and has been approved for publication by the Internet Engineering Steering Group (IESG). Not all documents approved by the IESG are a candidate for any level of Internet Standard; see Section 2 of RFC 5741.

Information about the current status of this document, any errata, and how to provide feedback on it may be obtained at <http://www.rfc-editor.org/info/rfc7354>.

Table of Contents

1. Introduction	2
2. Registration Update	2
3. Security Considerations	2
4. IANA Considerations	3
5. Normative References	3

1. Introduction

[RFC5328] registered the Uniform Resource Name (URN) namespace "dvb" for the Digital Video Broadcasting Project. Since the publication of that RFC, the registrant contact information has changed; this document updates the registrant information to make it current. It uses a role-based email address to reduce the need for updates in the future.

2. Registration Update

This replaces the "Registration Information" and "Declared registrant of the namespace" fields in the registration, specified in Section 2 of RFC 5328. The new information for those fields is as follows:

Registration Information:

Version: 2
Date: 2014-08-11

Declared registrant of the namespace:

Name:	Peter Siebert
Title:	Executive Director, DVB Project Office
Affiliation:	DVB Digital Video Broadcasting
Address:	Ancienne Route 17a CH-1218 Geneva SWITZERLAND
Phone:	+41 22 717 2717
Email:	dvb@dvb.org

All other fields in the registration information are unchanged and remain as specified in RFC 5328.

3. Security Considerations

There are no security considerations for this registration update.

4. IANA Considerations

In the "Formal URN Namespaces" registry (<http://www.iana.org/assignments/urn-namespaces>), IANA has added a reference to this RFC, in addition to RFC 5328, for the "dVB" namespace registration. The reference field now contains two RFC numbers.

5. Normative References

[RFC5328] Adolf, A. and P. MacAvock, "A Uniform Resource Name (URN) Namespace for the Digital Video Broadcasting Project (DVB)", RFC 5328, September 2008.
